

EUROPEAN CLIMATE PACT

What is the European Climate Pact?

Launched by the European Commission as part of the European Green Deal, the Pact is a movement of people united by a shared mission to build a more sustainable Europe and help the EU to become **climate-neutral by 2050**.

The Climate Pact brings **individuals, communities, and organisations together** to fight climate change and adapt to its consequences.

Why join the Pact?

Everyone has a place in the Climate Pact, whether you are just starting out on your climate action journey or are already working to make a difference.

Make practical **changes to your lifestyle** to reduce your carbon footprint

Inspire friends, family and colleagues to take action for **real change on the ground**

Access tools and resources to inform and educate others

Share your views with EU policymakers through Climate Pact events

Showcase your commitment to climate action and **lead by example**

Benefit from opportunities to **network, learn from others, and share knowledge**

How can I take part?

Monitor and cut your carbon footprint! The Pact has partnered with **ActNow**, the United Nations campaign with a mobile app that measures the impact of your daily activities.

Engage in climate action with your community and share ideas on how to make the future sustainable.

Do you represent an organisation committed to driving climate action and inspiring others? Become a **Partner of the Pact**. New calls for Pact Partners are regularly announced.

Become a **Climate Pact Ambassador** or Friend of the Pact to promote climate action in your network. New calls for Pact Ambassadors are regularly announced.

Organise your own **Climate Pact satellite event** to facilitate local discussions and explore new ideas and solutions.

Use our **resources** to spread clear and accurate information about climate change and climate action.
