Join the Circle Pledge social media challenge!

The Climate Pact is organising a virtual event on 29 June to raise awareness of the progress and opportunities of the Pact, encourage pledging and share uplifting stories of climate action.

We invite you to take part in our endeavour to collect as many pledges for our planet as possible and start a conversation online by joining the Circle Pledge.

#EUClimatePact

#MyWorldOurPlanet

For this challenge please **keep the hashtags in English** in order for your posts to be easily found.

The caption can be written in English or in your native language.

Below are some examples of what your description can look like. Feel free to adapt in your own words based on the pledge you are choosing to take.

1. For a long time I thought that what we do as individuals doesn't affect the bigger picture, but if the past year has taught me anything, it's that there's no limit to what we can achieve when we all act together.

This is why today I join the EU Climate Pact and I take my first pledge: I pledge to switch to a plant based diet for one month.

This only works if we are all in. Visit this link (link in bio) to get involved: <https://www.count-us-in.org/businesses/eu-climate-pact/campaigns/euclimatepact/>

2. Imagine what we can do if everyone truly believed their action makes a difference. Today I have decided I want to play my role in ensuring a healthy and thriving planet for us and those who come after us. That is why I have joined the EU Climate Pact and I took my first pledge: I pledge to walk & cycle more for the next month.

One small step by each and every one of us is an extremely large change! Join the movement and take your own pledge!

3. In the past year, there have been fewer people commuting to work so I enjoyed cleaner air in my neighborhood. I directly experienced how our actions impact our world. That's why today I pledge to walk & cycle more during the next month.
