

## Youth Engagement Tools - Overview

Within the European Climate Pact several tools and initiatives to foster climate action and youth engagement at local, regional, national or even European level were developed. Below, the Climate Pact Tools including quick access to further information are presented.

### Climate Pact Website Resources

Resources library providing useful and inspiring information on climate change, climate initiatives and possible actions

[Climate Pact Resources](#)

### Youth Climate Pact Dialogue

Exchange between young ambassadors and high-level political decision-makers on climate issues (e.g. sustainable consumption; sustainable mobility)

[Guidance: How to Run a Youth Dialogue at Local, Regional or National Level](#)

[Report: First Youth Dialogue on Sustainable Consumption](#)

[Video: First Youth Dialogue on Sustainable Consumption](#)

[Report: Second Youth Dialogue on Sustainable Mobility](#)

[Video: Second Youth Dialogue on Sustainable Mobility](#)

### Youth Climate Pact Challenge

Call for ideas and co-creation with youth to bring about projects around climate action (incubators)

[Guidance: How to Organise a Youth Pact Challenge](#)

[Video: Winner of YCPC pitch their Ideas to Executive Vice President Frans Timmermans](#)

### EYE Toolkit

Toolkit on climate engagement arguments for youth to confidently respond to everyday statements against climate action

[Toolkit: How to talk to people about climate action](#)

### Peer Parliaments for Cities

Cities can encourage citizen to host debates among friends, families and colleagues about climate and environmental questions on e.g., sustainable mobility, energy transition and consumption

[Guidance: The Peer Parliaments go local: How to adapt the format to cities](#)

[Materials: Peer Parliaments](#)

### Local Collective Narratives / Prototyping for Action Workshops

A workshop format to work with citizens to identify local challenges linked to climate change and develop tailored solutions to foster climate action. The toolkit to replicate the approach will be published soon on the website of the Climate Pact.

**The following are tools and initiatives that the Pact engaged with and found useful to share further.**

### **Climate Academy**

The Climate Academies help schools to empower their students to become change makers based on science and holistic thinking – in their school, in their community and in their city.

[Climate Academy](#)

### **Climate Fresk**

Winner of the Youth Climate Pact Challenge in the category 'Climate Education for all'. A powerful tool for climate education based on scientific evidence, that can be scaled quickly within organisations, communities and even cities.

[Website Climate Fresk](#)

### **Mapping of prominent Local Climate Initiatives**

Best practices collection of local climate actions; for instance Leuven 2030, SONNET, Uppsala Climate Protocol
